

OLD LADIES TABLE

1. Who has had personal experience with an older person with Alzheimers or dementia? What was that like? Hardest part?
2. What is most frightening about Alzheimer's? (dissolution of self)
3. Students: When you must interact with a person with some level of dementia, disorientation, or memory loss, how do you approach this situation?
4. Students: What different ways of coping with memory loss have you seen in family members or patients? Seniors: What kinds of coping have you seen/tried yourself?
